

On behalf of the Lithuanian Academy of Sciences and on my own behalf, I extend the warmest congratulations on the occasion of the 150th Anniversary of the Romanian Academy.

During its long years of activity your esteemed Academy has contributed greatly to the development and efflorescence of both the science and the Romanian nation. I wish you and all the Members and the staff of your Academy well-being, strong health and continued success in all your endeavours as well as new inspiring ideas and initiatives.

We express our delight over the close dialogue and cooperation ties maintained for many years now by our Academies in all areas and at all levels, ranging from strengthening bilateral relations to building up collaboration on the European level. We take pride in having your Academy as a long-term cooperation partner and we also hope to explore new ways of cooperation in the future.

VALDEMARAS RAZUMAS
